Sir:

In response to the October 19, 2001 Office Action, please amend the above-identified
REISSUE application as follows:

IN THE CLAIMS:

Please amend original patent claim 1 as follows:

- CM
1. (Thrice Amended) An embeddable mounting device comprising:
- a first rectangular metal plate member having a first inner surface, a first outer surface, a first length measuring between fifteen (15") and seventeen (17") inches, a first width measuring between seven (7") and nine (9") inches, and a first thickness, said first metal plate member being a one-piece unitary member;
- a second rectangular metal plate member having a second inner surface, a second outer surface, a second length of a measurement equal to said first length, a second width of a measurement equal to said first width, and a second thickness, said second metal plate member being a one-piece, unitary member; and
